My life has been a living breathing hell for the past years and I am planning something horrible my ideologies have been forged with hatred and it's because they're right I'm sorry for my English and Grammar my first language is french and I am moroccan Berber blood I hate Arabs sand niggers I hate them I hate kikes I hate faggots I hate the comunists I hate tranies the lesbians who don't even hide themselves anymore in this day this journal/manifesto will start to be written and you will be able to see the hatred of a kid turned into a monster, yes I am an incel but Its not the motivation of the attacks I might lead to do.

I love you 4chan /pol/ and soyjak party /pol/
You've build my ideas thank you
Hey police officers you might have to check out my discord accounts

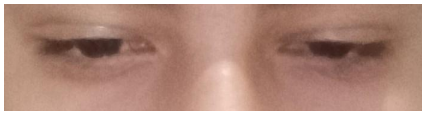
Not gonna lie I hate myself
Alright let's write a bit about my past
I've been Muslim and Isis for a minute but found that Christianity was right I consider myself white because of my heritage and skin color as you can see in this image

I'm autistic and probably schizo but that doesn't make me less of a person than you people calling me “7maq” at my school for the foreign people reading this “7maq” means mentally insane or something like that anyways I'll get more into my past later on into this journal/manifesto this is the end of day one (march 14 2025)
Hi here again the day didn't finish yet I feel sick I just wanted to say that the account rat_sekire_ on discord had been made after I had been investigated by dgst or whatever they're called ugh you can try to look into my old accounts if you could haha anyways here is a picture of my probably t50 eyes ugh if only I looked like my mother, wait I just took the picture I might not have t50



I should start talking about shooters and attackers I like

Stephan balleit couldn't even open a door what a doorcuck I won't talk about him but
i love anders brevik one of the man who made these kinds of attacks popular even let himself get arrested to show his ideas in court same for his manifesto "a European declaration of independence" he killed 8 people with a car bomb near the leftists gouvernement building and then went to Ùtoya youth camp on an island wearing a police uniform to trick the leftists activities youth camp then shot 69 people dead then got arrested and showed his ideas in court he is now serving his sentence he lead a nazi organization in his online gaming days just like me haha
Oh by the way I don't like sports I love Eliot rodger if it wasn't obvious I also love Anton lunidin

Good thing good man I hate this Moroccan

My sub racial group has been stripped of it's identity it has been arabized by the Arabs it has fallen our religion is smaller and smaller in my country this is not our country anymore the berbers have fallen our language has been replaced by Arabic everything is wrong race war and ethnic cleansing is the way out of this

“Is it democratic for nations not to be consulted weather it becomes multicultural to force it's people to become a minority in their own capital? Many will realize this in the coming decades and pick up arms, just as I did”

Bru why can't I put images Because of that stupid thing wait let me remove it because I wanna put an image of anders brevik because he's the one who said the quote I think

Finaly I found a way bro the image isn't supported like what

Look how beautiful this country is not even the Berber side why wouldn't want only white people

here? With racial purity? Why just why would you want to arabize these places? Look at the atlas mountains soo beautiful, I am extremely sick with fever right now also I didn't write because my life is soo boring nothing ever happens
